SURVEILLANCE SYSTEM ANALYSIS REPORT

Executive Summary

This report summarizes significant pose-based events detected during live surveillance. Events are generated using joint-level motion analysis and biologically-inspired rule-based reasoning to ensure full explainability.

Key Findings

- Total Significant Events Detected: 4
- Danger-Level Incidents: 4
- Suspicious-Level Observations: 0

Event Details - Frame 54

Detection Type	Details
Violence Detected:	Physical Assault
Final Severity:	Danger

Annotated Screenshot:

Screenshot not found or path is invalid.

Event Details - Frame 66

Detection Type	Details
Violence Detected:	Aggressive Interaction
Final Severity:	Danger

Annotated Screenshot:

Screenshot not found or path is invalid.

Event Details - Frame 68

Detection Type	Details
Violence Detected:	Physical Assault
Final Severity:	Danger

Annotated Screenshot:

Screenshot not found or path is invalid.

Event Details - Frame 77

Detection Type	Details
Violence Detected:	Aggressive Interaction
Final Severity:	Danger

Annotated Screenshot:

Screenshot not found or path is invalid.
