SURVEILLANCE SYSTEM
ANALYSIS REPORT

Executive Summary

This report summarizes significant pose-based events detected during live surveillance. Events are generated using joint-level motion analysis and biologically-inspired rule-based reasoning to ensure full explainability.

Key Findings

- Total Significant Events Detected: 2
- Danger-Level Incidents: 2
- Suspicious-Level Observations: 0

Event Timeline

[1.27s] Aggressive Interaction (DANGER)

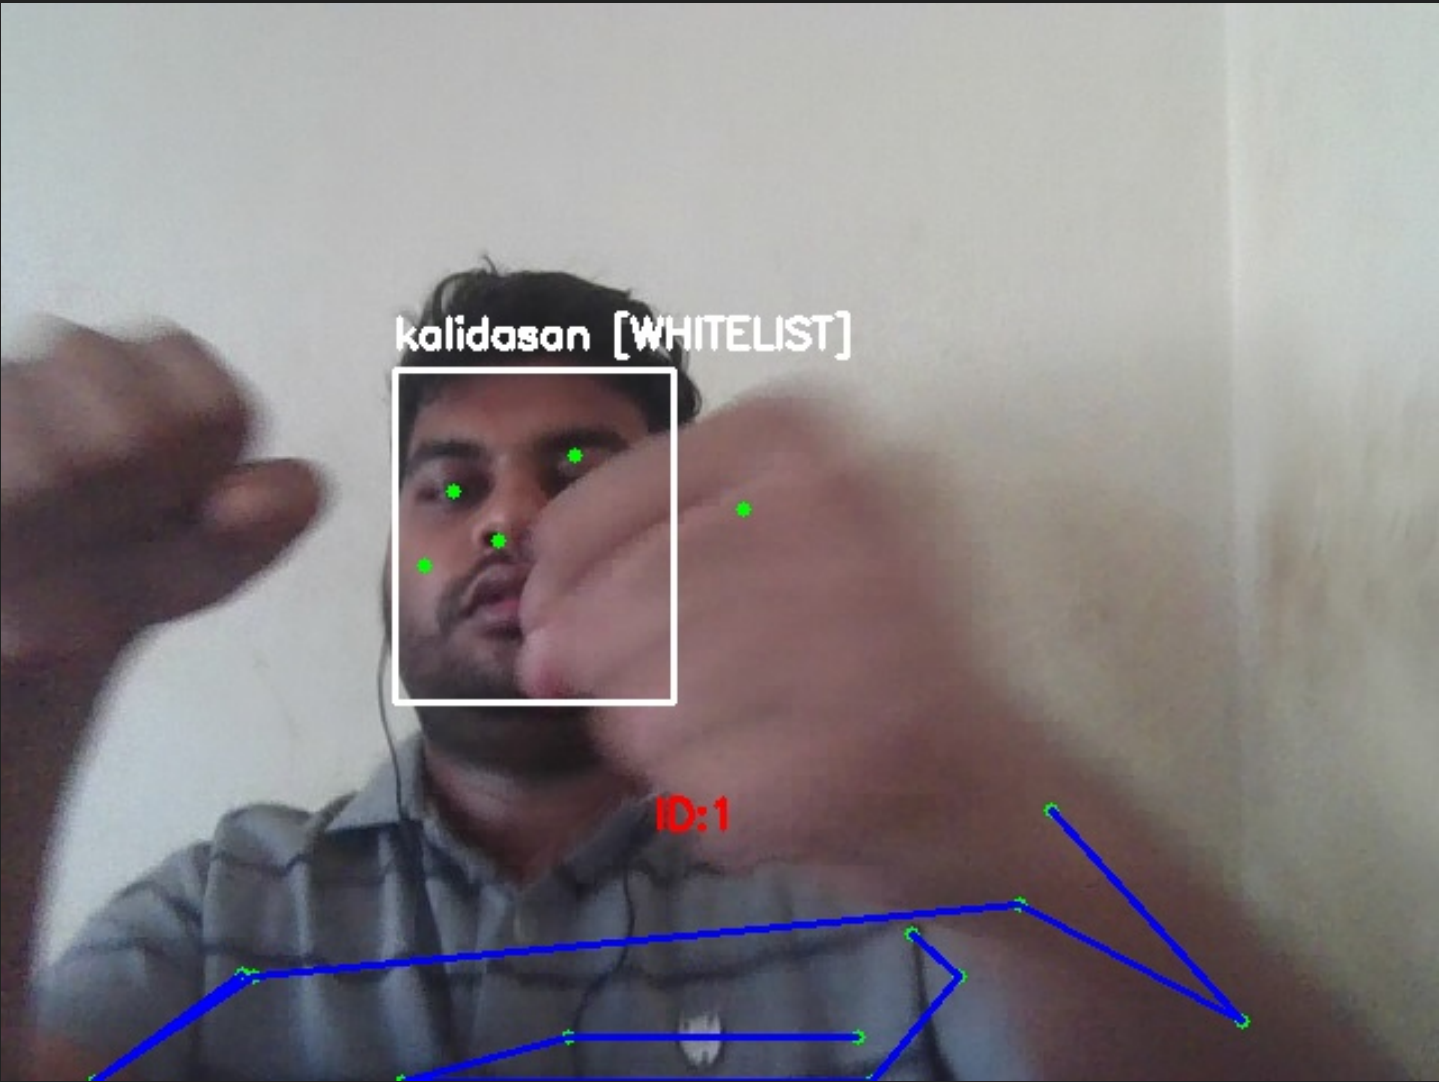

[1.37

[1.37

Event Details - Frame 1.27

Detection Type	Details
Violence Detected:	None
Final Severity:	Danger
