

SENTRY

SURVEILLANCE SYSTEM
ANALYSIS REPORT

Executive Summary

This report summarizes significant pose-based events detected during live surveillance. Events are generated using joint-level motion analysis and biologically-inspired rule-based reasoning to ensure full explainability.

Key Findings

- Total Events: 1
- Danger Events: 1
- Suspicious Events: 0

Event Timeline

[?s] Physical Assault (DANGER)

Event Details - Frame 0.3

Detection Type	Details
Violence Detected	Physical Assault
Final Severity	DANGER

Visual Evidence

Skeletal Structure
(Pose / 3D View)

Why this event was detected

Trigger Source : POSE_RULE

Rule Name : RAPID_ARM_SWING_HIGH_BODY_MOTION

Description : Rapid arm movement combined with torso displacement

Joints : left_wrist, right_wrist, left_elbow, right_elbow

Metrics : {'avg_hand_speed': 34.47, 'avg_torso_speed': 8.5, 'window_frames': 10}
